

## Budget Feedback - District Channels

Comment/Question	Source
I'm not sure if this is the correct avenue for my suggestion but here it is... I would like to see a plan to restore the sidewalks at the south end of 2nd ave. Our neighbourhood is full of cars and people are forced to walk in traffic as the sidewalks are non existent. Also people are forced to walk on the road on a Vancouver st which is a truck route. It's a matter of time until someone is run down. Please make this urgent.	<a href="mailto:budgetfeedback@squamish.ca">budgetfeedback@squamish.ca</a>
I've been in touch with RecycleBC to clarify some points in our recycling program. One thing I'd like to clarify with the DOS is, what do our utility fees pay for with regards to our recycling program. According to RecycleBC, we can only recycle packaging in the program because "it is entirely funded by the businesses and manufacturers that produce the packaging." You can respond to me via phone or email.	Contact form
Just reading some Squamish mom posts and it was suggested the pool get cubbies at the pool area to put towels etc in. A pregnant mom had no where to sit while her child was in swimming lessons but was asked to stay close. Lots of towels and bags etc were on the benches covering them. I have seen cubbies at other pools before so I know they're out there.	FB message
I would like to explore options available to install more public electric vehicle chargers in Squamish. Currently we have just two Level 2 (220 volt) chargers and one Level 3 high speed chargers in Squamish which is already causing problems as drivers move to electric vehicles and visitors to town struggle to find places to charge. Could Squamish initiate a program like the one in New Westminster to install Level2 chargers on street light posts that have been converted to LED lights freeing up enough power to charge two vehicles simultaneously? Thanks!	Website comment
Better snow plow service; More affordable rental options; Better litter removal service: New signs for Downtown (historic); Better traffic law enforcement; More infrastructure for water lines; Less foreign development; More local discounts/deals; Less corporate, more heart; Full court basketball; Better taxi's; Independent car insurance; Free shuttle service; New indoor skatepark. A parkade in town is needed now.	Comment Card - Brennan Park
Why is DeBecks Radio Tower lease listed twice at \$10K and \$12K? Can we not buy and install our own tower rather than lease? Are all of the upgrades to Brennan Park Recreation Centre not included in the Upgrade and Expansion Master Plan? Would make sense as part of the overall investment instead of repairs.	Comment Card - Brennan Park
Why is the new F250 for wastewater connections \$46K, and the V9423 F250 \$64K? (Responded to by Public Works)	Comment Card - Brennan Park
How about lights on bike lanes, especially Garibaldi Village to Brennan Park! Also, shut down Garibaldi Resort!	Comment Card - Brennan Park

New Blinds for Library \$10K? Digital aerial photos \$27K?	Comment Card - Brennan Park
The active transportation budget has remained at \$700k for years. When are we going to match roads and contribute equally to pedestrian and bike infrastructure in a town that values both pavement and active transportation? As well, selling off our last piece of public land before examining institutional needs and understanding where future assets will be located is not responsible. Previous councils had voted to preserve public lands, and not dispose of our assets without adequate consultation. The business park is our last piece of publicly owned assets, and will be undervalued. To sell off public land without consultation is irresponsible. We cannot make more land.	Squamish.ca
Re: Organizational chart. Staff out to provide a comparison analysis to say 2010 and to other BC communities of similar size. How do we fare on total FTE positions and costs taking into account our population growth?	Squamish.ca
Are you building a proper RV Dump station? Pemberton has a nice one for \$5 charge.	<a href="mailto:budgetfeedback@squamish.ca">budgetfeedback@squamish.ca</a>
During this leaf season The District should have extended the garden waste pick up for each week...poor thinking IMO! Think about it for next year please. Cut it off Dec 1st.	Facebook message
Competent staff does make feasibility studies redundant.	Squamish.ca
"Please watch TED TALK "The taboo secret to better health" re: our sewer issue. We could be innovators! <a href="https://www.ted.com/talks/molly_winter_the_taboo_secret_to_healthier_plants_and_people?language=en">https://www.ted.com/talks/molly_winter_the_taboo_secret_to_healthier_plants_and_people?language=en</a>	Comment Card - Brennan Park
No need to repaint 55+ (\$8000). Tech upgrade \$1,450,000. Is this needed?	Comment Card - The 55
