External Job Posting

Position:	Project Manager 2 – Facilities Planning and Construction
Status:	Permanent Full-Time
Work Area:	Facilities Planning, Construction and Maintenance
Posting Date:	February 3, 2025
Closing Date:	March 2, 2025

GENERAL SUMMARY

Under the direction of the Director of Facilities Planning, Construction and Maintenance, the Project Manager 2 manages the design and construction of a variety of major municipal buildings and facilities. Working within the Facilities Planning, Construction and Maintenance department, the Project Manager 2 oversees building construction and renovation projects while working closely with key stakeholders. This position manages architectural and engineering consultants and contractors while working collaboratively with other departments and multi-disciplinary teams to deliver critical new buildings and upgrades to meet the needs of a growing community.

MAIN DUTIES AND RESPONSIBILITIES

- Contribute to the success of our team and creation of our thriving community, by fostering the District of Squamish corporate values: Respect, Integrity, Connection and Progress.
- Project manage medium to large scale projects, or a standalone phase of large complex project, including gathering and defining project requirements; developing project charters and scope, project plans, budgets and schedules; identifying staffing requirements and establishing project teams.
- Follow project management methods, procedures, safety, and quality objectives, and tracks key performance indicators.
- Provide work direction and technical oversight to assigned project team, including scheduling, assignment of work, and review of project efforts project success.
- Review designs and technical documents to provide feedback, identify issues and suggest alternatives.
- Conduct field reviews of construction activities and identify and review non-conformances
- Champion sustainability through social innovation. Explore constraints creatively and redefines challenges to capitalize on connections. Identify opportunities to improve services and processes to create incremental organizational and social value.
- Assess variances from the project plans, budgets and schedules, develops and implements changes as necessary to ensure that the project remains within specified scope and time, cost, and quality objectives.
- Liaises with other departments within the District to ensure a coordinated and consistent approach.
- Establish effective working relationships with internal departments and external parties and agencies. Work collaboratively, negotiate tactfully in a timely manner, and navigate the processes and mechanisms necessary to develop mutually satisfactory solutions while optimizing benefits for the District of Squamish.
- Keep stakeholders, sponsor and management apprised of progress and issues by conducting formal and informal reviews. Conduct formal reviews with sponsor and/or leadership team at project completion to confirm acceptance and satisfaction.
- Foster a culture of continuous learning and improvement; facilitate information sharing to transfer knowledge and experience and increase the efficiency and effectiveness of the team. Maintain appropriate professional designations and up-to-date knowledge of current techniques and tools.

REQUIRED KNOWLEDGE, SKILLS & ABILITIES

- Considerable knowledge of architectural design, space and facility planning, engineering and construction principles and practices, as well as BC Building Code, the rules, regulations, and policies governing the construction industry.
- Considerable knowledge of Project Management methodologies, processes, standards and policies.
- Demonstrated experience and exposure to all stages of a project lifecycle from concept and feasibility analysis through to implementation and close out.
- Considerable knowledge and awareness of regulations, codes and safety standards in design and construction.
