

Event Waste Management Form

SIGNAGE, COLLECTION SETUP & TRAINING

Where will waste collection stations be located throughout your event site?

Can you provide a plan? ☐ Yes ☐ No

1. Are you committed to separating organics, recyclables, and landfill waste and to sourcing appropriate waste containers for the event? ☐ Yes ☐ No
2. What steps will you take to prevent contamination (e.g., clear signage, volunteers monitoring bins, bin lids with specific openings)?
3. Are you committing to providing sufficient signage to educate staff and vendors about waste diversion requirements? ☐ Yes ☐ No — If no, what support do you need?
4. Are you using an existing waste room, temporary waste corral, or offsite solution? If you do not have enough space to store your waste, what is your plan?

REUSABLES

5. Are you planning to use reusable items (e.g., dishware, cutlery, cups, signage, décor, etc.) at your event?
☐ Yes ☐ No
6. If you use reusable dishware, will you use a dishwashing station on-site, or are you working with an external reusables service provider? ☐ Dish washing station on site ☐ Service Provider
7. How will you prevent loss or improper disposal of reusable items?
8. Do your vendors or partners need support in shifting to reusables?
☐ No ☐ Yes — If yes, what support or resources would be helpful?
9. How will you communicate the reusable system to attendees so they understand how to participate (e.g., signage, social media, emcee announcements)?

WASHROOM FACILITIES

What kinds of washroom facilities will be available at the event?

Will the provided items (e.g., paper towels, soap, toilet paper) be sustainably sourced, refillable, or compostable? ☐ Yes ☐ No

WASTE MANAGEMENT COMMITMENT

- Every effort will be made to encourage waste diversion through the provision of an adequate number¹ of clearly labeled receptacles for garbage, recyclables, and compost waste on each event day. Furthermore, the event will ensure that all requirements outlined in the District of Squamish Wildlife Attractant Bylaw are adhered to including ensuring all receptacles are emptied into wildlife resistant containers by midnight on each day of the event, or removed same-day by the contracted provider.
- All event vendors (e.g. food trucks, farmers markets, and stalls) will be notified of our waste management plan, specifically that they are expected to support the waste diversion efforts including the safe disposal of grey water and cooking oils.
- All waste brought on-site will be removed following the event (on the last day of the event), including a thorough site clean to ensure all waste is removed from the event grounds as well as the immediate surrounding area (i.e. approx. 100 feet radius surrounding the event site).
- There will be a sufficient number of washrooms to ensure there is a minimum of one washroom (e.g. porta potty) for every 100 people attending the event².
- The event will ensure safe potable and/or bottled drinking water is provided at the event, that water is not drawn from un-permitted water receptacles (e.g. public taps located on-site or near-by), and ensure all Vancouver Coastal Health (VCH) safety requirements are met for water and food services.

¹ Vancouver Coastal Health recommends at least 1x95 gallon tote per 200 people for general waste, recyclables and compost

² Vancouver Coastal Health recommends at least 1 washroom per 100 people..

EVENT SITE MAP

Please provide a site map for all waste receptacles and washrooms for the event.
